HAVING had more than eighteen years' successful experience in securing *Letters Patent*, and having also a thorough knowledge of *Mechanics* as well as Patent Law, I continue to offer my services to Inventors and Owners of Patent Property, confident of my ability to give entire satisfaction to those who desire the best protection available for their inventions.

I not only procure Patents, Trade Marks, Design Patents, Copyrights, Labels, and all forms of Protection granted by the United States and other Governments on works of Invention and Authorship, but I act as Counsel in litigated cases, or where litigation is expected or threatened. I also make investigations, when a determination of the validity or scope of any existing Patent is desired, upon which to base a purchase of such Patent, or a decision as to whether the manufacture or sale of the invention described in it can be safely undertaken.

FORTY-FIRST VOLUME.

INTRODUCTORY.

In presenting this, the forty-first volume of the Indianapolis City Directory, we note with pleasure the increase in population, notwithstanding the depression during the last two years. The Directory of 1894 contained 57,598 names; this contains 59,982 names, an increase of 2,384, which, multiplied by two and one-half, shows an increase in population of 5,960, and the total population, including the suburbs, 149,955.

The Directory, in accuracy, is as nearly perfect as the most unceasing vigilance could make it. The publication of a directory for a large city like Indianapolis is a work of great difficulty and labor of which the public have no conception, because if they had we should suppose that many hundreds of our merchants, store keepers and others who use it a great deal during the year besides having their business represented from year to year in both the alphabetical and classified portion of the Directory without any cost to them, would give up the practice of borrowing and purchase a copy for their own use. The taking of names was completed about the 1st of December, and it is hoped that anyone who has changed his business location or residence since that date whose name, business or profession is not properly inserted will not censure the publishers, as communications appeared in the daily papers requesting such to send in their addresses for correction, the frequency of removals rendering it impossible for the publishers to make a correct directory without such assistance. To find a name you must know how to spell it. It is not uncommon for members of the same family to spell their names differently, preserving the pronunciation—a few instances as follows: Baar, Bahr, Barr, Beyer; Maher, Maier, Mayer, Meier, Meyer, Mier, Myer; Schaefer, Schafer, Shafer, Shaffer. We have in our office a library containing directories of all the principal cities of the United States for the free use of our patrons and strangers visiting our city. In addition to the benefits which our citizens derive from this valuable library, our "Exchange System," which places the Indianapolis City Directory in all directory libraries throughout the country, serves as an excellent advertisement for a prosperous city, for no other publication can convey such an idea of a city, its growth, its people, with their trades and professions; its schools, churches, societies, banks and railroads, and all the various institutions and organizations.

The wide circulation of the Directory enables capitalists and business men in every locality to communicate with our citizens and to note the progress and improvements the Directory annually records. Attention is directed to the city map, corrected up to date, and street guide attached thereto indicating by letter and number where each street may easily be found.

We extend our thanks to the patrons of the Directory for their continued confidence and support.

Butler University

Irvington, the site of the University, is an attractive suburb of Indianapolis, four miles east of the center of the city and connected with it by electric street cars, making quick trips every fifteen minutes. The population of the village consists mainly of those who have been drawn thither by its educational inducements. This gives it a special character of cultivation and good order, while, as a home for students, it is singularly free from the temptations and dangers often surrounding college life.

The University, in its literary and scientific departments, maintains a full corps of instructors and offers every facility for thorough college work. Instruction in elocution and regular and systematic training in physical exercises, and in military drill, are afforded without extra charge. Instruction in music, also, is provided. The theological department aims at the highest scholarship. An excellent preparatory school fits students for college classes. Residence for young ladies is offered in a carefully conducted boarding hall on the college campus, where young ladies only are received. All the buildings are supplied with steam heat and electric lights. Tuition and living expenses low. For catalogue and information address,

GUARANTEED INCOME POLICIES issued only by the
R. S. MARTIN, M'g'r, 25 E. Market St.
United States Life Insurance Co.

THE PROVIDENT LIFE AND TRUST COMPANY

.... OF PHILADELPHIA ....

Why You Should Insure in the Provident.

It is surrounded by greater safeguards than any other life insurance company, and gives greater guarantees for the future.

It has nothing in its history that needs apology or explanation. Neither the integrity nor the ability of its officers has ever been questioned.

It has never appeared in court to contest a death claim.

Its charter provides for the continuance of the present wise and conservative management.

It will, under all circumstances, deal fairly with you.

Its practice is to grant an extension of time, if the insured is unable to pay premiums when due.

Its policies are non-forfeitable after the payment of BUT TWO annual premiums.

It will not take advantage of your necessity. If circumstances oblige you to take a paid-up policy, it will participate in the surplus.

IT IS A STRONG COMPANY.

It has, besides the legal reserve and a large surplus, the additional protection of $1,000,000 Capital Stock, on which the policy-holders pay no interest.

Its investments are secure, its management economical, and its premium rates are low.

Its rate of mortality is below all other American companies, and its dividends from this source correspondingly larger.

It has long been entrusted with the most sacred interests, has been true to them, and proven itself worthy of your fullest confidence.

Why You Should Insure Now.

Delay increases the cost.

You now have health and the requisite means at your command.

You are not sure of a later opportunity.

Sudden illness or injury may make it impossible or even end life itself.
